

## Lab 5: Data cleaning

Fill in your full name

2025-10-02

### Exercises

#### Exercise 1

```
towed_renamed <- towed %>%  
  rename(  
    tow_date      = `Tow Date`,  
    make          = Make,  
    style         = Style,  
    model         = Model,  
    color         = Color,  
    plate         = Plate,  
    state         = State,  
    towed_to_address = `Towed to Address`,  
    tow_facility_phone = `Tow Facility Phone`,  
    inventory_number = `Inventory Number`  
  )  
  
colnames(towed_renamed)
```

```
## [1] "tow_date"      "make"          "style"  
## [4] "model"        "color"         "plate"  
## [7] "state"        "towed_to_address" "tow_facility_phone"  
## [10] "inventory_number"
```
